- 3 Key TA Roles:
  - Lab Instructors
    - Responsible for nearly all aspects of the lab.
  - Lab TAs
    - Help in the lab working with the students
  - Markers
    - Support the lecture prof by marking assignments etc.

- Over 40 undergrad courses with a lab component.
Teaching Assistantships in ECE con’t

• Each year, about 100 grad students get a TA job.

• This year ~130 students applied for a TA position.

• PhD – Eligible after completing 1 year (Sept 2017)*

• MSc – Eligible after completing 1 term (Jan 2017)

• MEng – not eligible

• Announcements are all sent through the [ECE-grad] mailing list.

• Opportunity to apply for winter 2017 positions later in September - watch for an email.
Teaching Assistantships in ECE con’t

For Students who have received a commitment from the department:

- You must perform well & meet deadlines
- In 1st year we’ll pre-pay you for future work.
- You are expected to work a small position in the winter term - apply in September!
- In subsequent years, you will repay the 1st year payment by working a few extra hours.
- If you get a scholarship do not spend it all at once - your TA pay will most likely get cut.
- If this applies to you, you should have received a handout in your package from Pinder with more information.
